

## Sanderson - CFI Learn and Teachbacks 8

Ryan Sanderson presents, for his clients, an interactive two-hour training seminar to educate prospective CFIs. The focus is "What I wish I had known preparing for the practical exam." The CFI students are preparing for practical tests and are improving their lesson plans and practicing teaching, while receiving feedback from the group as well as a seasoned trainer. The experience gained from this is invaluable in becoming an effective CFI. Topics include those to be commonly taught at the private and commercial levels.

**Directions:** From St. John's Bluff Road, enter the Craig Airport main entrance, and take the second left, park at the fence near the pedestrian gate.

### A message from the National FAASafety Team Manager
